Putting people back into the people business

Gretchen Morris

Before starting her career in Health Insurance, Gretchen Morris spent over 30 years in the marketing field and built her own business. She brings the skills of organization, communication, and insight to each encounter she has. She is a Certified MN Sure broker and is licensed for Medicare, Life insurance, final expense planning, and long term care.

Gretchen and her husband of 28 years live in Ramsey and have one adult son. They are an active couple and can be found on any given weekend kayaking, biking, working out, or working in the garden. Their happy places are the beach, in their rv traveling or on their motorcycle. They vacation in Florida and enjoy time with friends and family.

"I wanted to share this photo of myself with my brothers, all career military. Coming from a family who serves I am excited to finally be in a position that also serves people. I feel I will do this by helping them navigate their insurance needs as they journey through life. The complexity of choices can be overwhelming, but my goal is the same as ASB, educate and make thoughtful recommendations so that your journey can be one of health and security. I look forward to earning your trust and becoming a lifelong resource for you."
